SYNOPSIS

In “Summer Hill,” the high school students of a conservative farming community watch as their lives unravel before them on the day of the Miss Summer Hill Pageant. The media often portrays small town life as charming and picturesque, however, “Summer Hill” subverts this, examining the problematic undercurrents of rural conservative life, and how it affects the lives of the teenagers trapped within its borders.

LOGLINE

The teenagers of a rural community are confronted by the not-so-charming realities of their hometown on the eve of its annual beauty pageant.
